THE TILES ARE FULLY DEMOUNTABLE AND NON- COMBUSTIBLE WILL NOT SUPPORT GROWTH OF BACTE-RIA OR OTHER MICRO ORGANISM AND HIGH STANDARDS OF THERMAL CONDUCTIVITY AND RESISTANCE. THE TILES ARE ZERO RATES FOR SMOKE EMISSION , NO TOXIC FUMES ARE GIVEN OFF LIFE REFLECTANCE OF SELF FINISHED TILES ARE ABLE TO ACHIVE NOISE REDUCTION COEFFICIENTS.

- SPECIFICATIONS:
- 1: SUPERB PRICE AND QUALITY.
 - 2:FIRE,WATER AND MOULD RESISTANT.
 - 3:OVER 45 PATTERNS SELECTABLE.
 - 4:CEILING DECORATION.

FEATURES:

- 1: DEVERSIFIED PATTERNS.
- 2:FIRE,WATER ,YELLOWING AND MOULD RESISTANCE.
- 3:LIGHT WEIGHT BUT STRONG.
- 4:EASY TO CLEAN.
- 5: NO COLOR ABBERATIO.

AWARDS & PRIZES

RAW MATERIALS

METHOD OF MANUFACTURING

DESIGNING

THE ARCHITECTER / GRAPHIC DESIGNER DRAW THE DESIGN AND MODELS THESE PRODUCT ARE HAND MADE BY DEDICATED AND SKILLED CRAFTS MEN USING METHODS AND MATERIALS HANDED DOWN TO THEM WHEN DESIGNS ,CONDITIONS AND COSTS ARE GREED WE WILL CARRY OUT THE WORK ALWAYS WITH OUR OWN FULLY TRAINED VERY QUALIFIED AND FULLY EMPLOYED

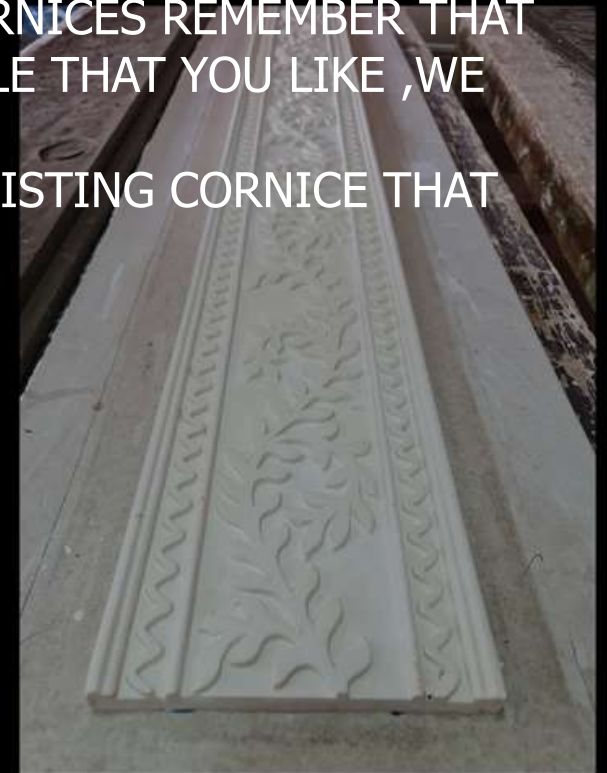

MOULDING & MANUFACTURING

GYPHUM POWDER IS TOBE WELL MIXED WITH CLEAN WATER UNTIL THE PLASTER HAS TO BE READY TO PUT ON RUBBER MOULD COMPLETE PROCESS IS DONE BY HAND,FIRST OF ALL WE WELL CLEANED THE RUBBER MOULD WITH CLEAN WATER ,LITTLE GYPHUM PASTE PUTTING ON MOULD AND SPREADING EVERY CORNER OF MOULD ,AFTER PUT ON REINFOR CEMENT ALL INSTRUMENTS MUST BE CLEANED WITH WATER BEFORE USE AS WELL AS AFTER USE

AFTER FINISH THE PRODUCT WE ARE HANGED ON HOOKS SO IT WILL DRY FAST .DURING WINTER SEASON WE KEEP OUR DRY ROOM TEMPERATURE HIGH BY ROOM HEATER

HERE AT THE CORNICE FACTORY WE OFFER A WIDE VARIETY OF CORNICES REMEMBER THAT ALL OUR CORNICES ARE CUSTOM MADE , IF YOU DO NOT SEE A STYLE THAT YOU LIKE ,WE CAN MAKE ANYTHING THAT YOU WISH JUST GIVE US A DRAWING ,PICTURE OR EVEN A TEMPLATE OF AN EXISTING CORNICE THAT .YOU ALREADY HAVE WE WILL DO OUR BEST TO ACCOMMODATE

DECOR ACCESSORIES AND TOOLS

Decor accessories and tools

Aluminum Tiles :-1.strong corrupt proof aluminum ceiling tile 2.600*600mm or customized alu-ceiling tile

Tracks :-The better size and the lighter weight for easier use and installation.Good quality and different sizes.

Studs:- Hot dipped galvanized materials ireproofing, humidity resistance

Board channels:-high-quality hot dipped galvanized steel coil Length and thickness can be customized as customers request If any of our products be of interested to you

Furring Channels :- The ceiling furring system is suitable for most commercial, recreational and retail applications as well as residential developments such as flats and apartments.high quality good price

Main Channels:- 1)Good and Stable quality 2) Strong bearing capacity 3)Non-deforming, fadeless

Main Runners :- Main Runner, Main Tee – Primary or main beams of the type of ceiling suspension system in which the structural members are mechanically locked together. Fireproof, Heat Insulation, Sound-Abs..

Cross Tees:- cross tee are made of galvanized steel and color steel. This production can be made of different size which is according to different size of ceiling board.Ceiling T grids has many advantages, include: beauty, good strength, cauterizationresistance, and water resistance.

Wall Angles:-Ceiling t bar is suspension false ceiling consisting of the main tee,cross tee and wall angle to make the grid system to support the lay-in ceiling tiles.It is easy for installation and maintance.

Drill bits:-Available diffrent sizes

Gypsum Board Wall Angles:-All size perforated wall angle, material is gavalnized or Aluminum, used for the dry wall system.

Spring Tees:- Surface smoothness Flexible suspension system makes each ceiling tile easilyinstalled and disconnected)Easy to match lamps or other ceiling parts

Tee grids :- Ceiling support bar,ceiling suspension t barhigh quality materials ,moisture proof antisepticise , ametabolic ,fastness.

Edge Trims:- Surface Treatment: oxidation , polished , powder coated,dimension as per your request

Clips :- Also called u type clip,we also have:extender,double spring,loop eye,reversible hanger,cross coupling, anchor angle,etc. **Suspension clips**:-It assists t-grid to install various ceiling tile

Channel brackets:- Size can according to customers' drawings or samples

Nail clips:- Round Cable Clip(Circle Cable Clip), Flat Cable Clip, Hook Cable Clip

Catridge:- Aluminum alloy catridge , heavy duty **Screws and Nail**:- Available diffrent sizes

Fibre tapes:-High quality,low price,fast ship

Hanging wires:- Galvanized steel wire is classified into hot dipped galvanized wire and electro-galvanized wire.

Fishers:-Nylon and PE anchor fisher with nail

Joining compounds:-Specially formulated for quality finishing ofdrywall joints. A ready-mixed/Non Asbestos vinyl compound used forembedding Joint Fibre Tape, for filling and for final touch-up coats ininterior gypsum panel applications. It is ideal material for coveringembedded fasteners, corner beads, and for skim coating gypsum panelsurfaces where necessary.

QUALITY CONTROL

The Quality controller will check all finished products and the certified goods to be ready for sale, the defect products will be rejected and will go to packing section and we use packing support for goods safe transporting. Smooth surface, clear flower pattern, obvious three- dimension effect, high strength, and excellent constructive performance. It is fire proof, mildew and worm resistant, moisture proof, and sound and heat insulated. It can be processed by sawing, digging, nailing, adhering and patching, and therefore it is easy and convenient in construction.

Our high standard of quality control ensures that our customers get the most out of these mouldings. We manufacture every job to order to make certain that our clients get exactly what they want.

To make sure our customers are satisfied .
High quality with the competitive price

Quality Check

PLASTER BOARDS

Plaster boards are available standard dimensions and different variety from Knauf, Elephant and NGC (Saudi) brand. Plaster boards has been widely used as an interior building material both for wall and ceiling systems offering short time to construction, easy installation, higher resistance to fire, greater economy than other building materials.

Features of gypsum board:

paper faced gypsum board is a lightweight panel which use gypsum powder as raw material, it use Glossy paper at the two size. The board have many advantage such as lightweight, high strength, fire prevention, moth, moisture resistant, water proof, sound proof, easy processing and so on.

Paper faced gypsum board are widely used for wall partition (include inner wall, wall) and ceiling. water resistant gypsum board can be used for wall of humidity room, such as the bathroom, kitchen, warehouse and so on. Fire rated gypsum board is filled in some additive in the gypsum core, so it not only have the advantage of common gypsum board, but also can let the refractory time longer. In this way to save the precious escape time.

Specifications:

Type:
Standard (common) gypsum board
Moisture resistant gypsum board
Fire rated gypsum board
Water proof gypsum board

The complete range products is supported by a substantial technical service, You will find a solution for your constructional problems with ARABIAN GROUP.

METAL STRIP CEILING SYSTEM

Metal strip ceiling systems are available in standard size, wide range of colours, choice of patterns and standard specification. All components have a corrosion resistant finish suitable for areas of normal temperature and humidity. Routine maintenance is normally necessary.

The suspension system is easily assembled without the need for special tools. Panels can cut, where necessary, with cutting scissors or nibblers.

Panels can be cleaned using mild detergent in warm water, sprays and solvents should not be used.
